Overall Length:

25.000 inches

Overall Height:

20.000 inches

Overall Width:

19.000 inches

End Application:

Ac-130 aircraft

Unpackaged Unit Weight:

51.000 pounds

Criticality Code Justification:

Agav

Product Name:

Portable pxi platform

Functional Description:

Used for field testing and data acquisition system

Reference Data And Literature:

Mts-207 user guide

Relationship To Similar Equipment:

Based on mts-206 maverick missiletest system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
