End Application:

A-10 aircraft

Product Name:

Adapter assembly, interface test-epu/iepu

Special Features:

Consists of case 2217601-001 and ita 2217605-001

Functional Description:

Used to function test the electrical processing unit and improved electrical processing unit using the f-16 improved avionics intermediate shop

Reference Data And Literature:

T.O. 33d7-38-297-2. Applicable to air national guard only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
