Overall Diameter:

1.500 inches

End Application:

F15A-IR-CRA-FT;T

Frequency Range:

+18.0/+40.0 gigahertz

Test Item Connection Method:

Connector and integral waveguide flange captive

Product Name:

Adapter, wrd180-k

Special Features:

Weight 7oz; type k female connector; waveguide m23351/4-045; waveguide flange m39000/3-084; vswr maximum 1.40: 1; insertion loss 0.6db; power handling 5w at 40ghz, 10w at 26.5ghz, 15w at 18ghz

Functional Description:

Intended for use in military automatic test stations

Reference Data And Literature:

Drawing 10109781

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A537k0
