End Application:

B1-b aircraft

Product Name:

Coolant temperature controller test adapter group hardware

Special Features:

Consists of 200542501 ctct ita assembly, 200542521 200542522 200542523 200542524 cables, 200542551 200542553 2005ftldgused to provide electrical interface between coolant temperature controller 783421-1-1 and advanced digital test station

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
