End Application:

B1-b tps

Criticality Code Justification:

Agav

Product Name:

Nlg ctrl and damptr

Special Features:

Dimensions 22.7"l, 16.1"w, and 7.1"h

Functional Description:

Allows trained usaf operators to fault isolate to the failed nose landing gear control and steering damper control unit circuit card assemblies

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
