Overall Length:

31.500 inches

Overall Height:

12.000 inches

Overall Width:

21.000 inches

Product Name:

Military fuel leak detector-filling/injection case

Special Features:

66 lbs

Functional Description:

Portable encased pressurization system using helium to detect aircraft fuel system leaks

Reference Data And Literature:

Aerowing doc tech 073

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
