**Overall Length:**

0.625 inches

**Overall Height:**

0.690 inches

**Overall Diameter:**

0.500 inches

**Product Name:**

Fingertip contact transducer

**Special Features:**

Material: 4340 steel

**Functional Description:**

Frequency: 1.0 mhz, damping (ohms): 340, gain (db): 40, attenuation (db); 58

**Material:**

Steel

**Supplementary Features:**

Transducer class: contact, focal type: flat, case style: cm, loop gain (db): -30.28

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
