Overall Length:

19.250 inches

Overall Height:

6.600 inches

Overall Width:

6.000 inches

End Application:

Q-21 small tactical unmanned a/c

Special Features:

This thermoelectric cooler cools av avionics while on ground; operates on 28 vdc, 15 amps max. Via shore power supply; contains: external air filter, internal dust filter, condensate drain line; cold air flow: 8-28 cfm; capable of ambient temp drop of 20-30 degrees on high, 10-18 degrees on low; requires 29v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
