Product Name:

Hydraulic power units

Special Features:

Adjustable working pressure; 3 phase, electric motor available in 6 voltages; 70 gal stainless steel reservoir with desiccant air filtration canister; large fluid cooler with 3 phase electric fan; high efficiency non-bypassing pressure filter with 2-micron absolute, microglass iii element; easy access fluid sampling valve; 2-48 gpm dual scale flow meter; dual scale pressure gauge; standard 25 ft pressure and return hoses; standard 50 ft input power cord without input plug; high fluid temperature shut off switch with led indicator light; -40 to 180 degree f dual scale pyrometer; hourmeter; galvanized sheet metal to prevent corrosion; durable powder coat tan/air blue

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
