Mv-22 & v-22 aircraft

## **Product Name:**

Adapter set, aircraft engine components tests stan (aects) (meak-29)

## **Special Features:**

This adapter set is used with the aects to perform these tests primarily for the mv-22 and v-22 aircraft generators (constant frequency and variable frequency). The aircraft engine components tests stand (aects) 4920-01-464-2615 is a universal test stand that will meet land base and shipboard requirements.
