End Application:

Ttu-392e/e

Unpackaged Unit Width:

24.000 inches

Unpackaged Unit Height:

24.000 inches

Product Name:

Test set

Special Features:

Input power characteristics are 50-hertz, 60 hertz, & 400 hertz, single-phase, 115v & 230v ac, 24v to 36 v dc

Functional Description:

The digital test set ttu-392 is being modified by incorporation of changes to provide production capability for new orders and software changes to allow testing of new enhanced paveway ii systems (mau-169k/b) and enhanced paveway iii systems (wgu-43f/b and wgu -43g/b) through the addition of new displays for operator testing. Pass/fail results of the testing are displayed to the operator. The unit provides electrical power and a simulated laser target to the unit under test and processes the results generated by the unit under test to provide pass/fail results to the operator

Unpackaged Unit Weight:

250.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
