Connection Thread Size And Series/type Designator:

1.125-27 nptf

Basic Material:

Steel

Design Type:

Straight

Connection Thread Location:

Internal

Swivel:

Not included

Dispensing End Type:

Nozzle

Inlet Fitting Connection Type:

Hydraulic

Nozzle Connection Type:

Hydraulic

Maximum Working Pressure:

10000.0 pounds per square inch

Extensionlength:

Between 12.000 inches and 14.000 inches

Extension Design:

Included

Flexibility:

Flexible

Surface Treatment:

Any acceptable

Specification Or Standard:

4 type and 1 class and b size

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T293-n
