Current Type:

Ac

Filtering Material:

Fiberglass

Filtering Material Design:

Spun roving

Filtration Rating In Microns:

3.0

End Application:

Wasp class lhd

Frequency In Hertz:

60.0

Drain Plug:

Included

Installation Design:

Fixed

Voltage Rating:

Between 230.0 volts and 460.0 volts

Horsepower Rating:

1.500

Unit Type:

Single

Power Source:

Electric motor

Magnet:

Not included

Drain Cock:

Not included

Filtering Element Quantity:

1

Element Reusability Feature:

Nonreusable

Cleaning Blade:

Not included

Flow Type:

Full

Bypass Valve:

Not included

Air-bleed Valve:

Not included

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T384-a
