Overall Diameter:

25.000 inches

End Application:

4920-01-347-1666

Special Features:

Thickness 0.0747" (14 gauge); has 3.00" diameter through center hole; rim for one side of drum of spool p/n 93197-259 of a hose reel

Material:

Stainless steel

General Description:

Material per astm-a-366; surface finish is epoxy polymide primer per mil-p-23377f type i class ii; polyurethane top coat per mil-c-85285 type ii; color green no.24052 per federal standard 595

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
