Drive Type:

Spring driven piston

Reservoir Capacity:

2.0 ounces

Feed Quantity:

1

Reservoir Type:

Single

Product Name:

Automatic grease feeder

Special Features:

Polycarbonate dome; viton piston seal ring; spring driven piston grease feeder for corrosive environment

Surface Treatment:

Chromium and nickel

Supplementary Features:

Navy weapons system 85, radar navigational acls (an/spn-6, 42, 43)

Surface Treatment:

Chrome plated and nickel plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T293-d
