Discharge Pressure:

5500.0 pounds per square inch gage

Structural Form:

Straight

Operation Method:

Push

Priming Method:

Atmosphere

Product Name:

Gun, grease, pistol grip

Special Features:

Develops 5500 psi maximum pressure; suction and filler valves for cartridge/filler pump loading plus air bleed and bulk filler valves for cartridge or bulk loading; two-position handle offers high/low volume or pressure control; includes filler nipple, flip-over follower, 12 in.

Flexible hose, 6 in. Rigid extension, hydraulic coupler

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T293-b
