End Application:

General aircraft refuelling

Product Name:

Force mission support plumbing assembly (force)

Functional Classification:

Ee-2.4

Special Features:

Purchase description number pd04wrleev25 cage 98752

Functional Description:

Consists of hoses, valves, adapters, couplings, and evacuation equipment used to connect components of force tactical airfield fuel receipt, transfer, storage, and issue system

Reference Data And Literature:

Pd04wrleev25 purchase description

Supplementary Features:

Also includes two 900gpm meters; air transportable when containerized

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
