End Application:

4930-01-370-3061 arctic closed circuit refueling nozzle

Component Quantity:

14

Component Document Origin:

Industrial

Document Source:

0dt23

Special Features:

Upgrades piston to piston assembly and changes main sleeve seal to polytetrafluoroethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
