End Application:

2330-01-537-8217; semi-trailer, fuel tank, 5000gal

Product Name:

Filter, separator element, replacement

Special Features:

Outside to inside flow separator cartridge; variable flow control hole pattern; 4.5625in outside diameter; 3.500in mounting end inside diameter; 24.00in long; blind opposite end inside diameter tcs medium is 200 mesh stainless steel screen coated on both sides with green polytetrafluoroethylene, screen is lockseam folded and fastened with internal aluminum clip; end caps and tubes are aluminum; gaskets are buna-n; 200degree f operating temperature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T384-b
