End Application:

Fuels operational readiness capability equipment (force) a/er-21 plumbing assembly

Product Name:

Basic force starter (jdfs)

Functional Classification:

Ee-2.5

Special Features:

Consists of 5 tricon containers: 0421-00-1100, -1200, -1300, -1400, and -1500 assemblies

Functional Description:

Used to provide plumbing between various components of force system

Gross Weight:

35600.0 shipping container pounds

Entry Date:

09-04-08

Reference Data And Literature:

To 37a9-3-5-61

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
