Overall Length:

12.4 inches

Overall Height:

24.0 inches

Accessory Components And Quantity:

0.23 od x 5-inch dipstick tube, 0.26 od x 5-inch dipstick tube, 0.41 od x 5-inch main evacuation tube, brake/clutch bleeding adapter kit (p/n 07205), tube adapters

Product Name:

Pneumatic vacuum

Special Features:

Made of polyethylene; compressed air inlet is 1/4 inch npt; reservoir capacity is 2.3 gal/8.8 liters; independent air shut-off valve

Material:

Plastic

General Description:

Portable pneumatic vacuum for draining tanks and reservoirs with accessories for draining engine oil or transmission fluids directly from dipstick tubes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
