Overall Height:

57.5 inches

Overall Width:

32.0 inches

Pressure Rating:

80.0 pounds per square inch

Voltage In Volts And Current Type:

24.0 dc

Special Features:

Depth 35.00 inches; guarded power switch; 5-micron filtraton; circuit breaker protection; built-in recharger curicuit; fluid shut-off valve; requires 115 vac, 1 ph power (recharging); tank fluid level gauge; pneumatic tires; mechanical flow meter (quarts); finish: polyurethane paint; hose reel with 35 ft hose; fluid type: turbine oil, hydraulic; tank one pressure relief valve, flow rate: 6 qts/min; air filter/water separator regulator; approved on c-17 aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
