**End Application:**

4940-01-565-9593

**Operation Method:**

Hand

**Lubricant Capacity Per Stroke:**

20.0 ounces

**Pressure Rating:**

Between 45.0 pounds and 150.0 pounds

**Product Name:**

Piston pump

**Special Features:**

Double acting pump, patented air valve, factory lubricated air motor, built-in sintered brass air filter, anodized aluminum air piston, height adjustable, bung adapter, pump inlet easily accepts a variety of extensions

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T103-e
