End Application:

4940-01-565-9593

Operation Method:

Hand

Lubricant Capacity Per Stroke:

20.0 ounces

Pressure Rating:

Between 45.0 pounds and 150.0 pounds

Product Name:

Piston pump

Special Features:

Double acting pump, patented air valve, factory lubricated air motor, built-in sintered brass air filter, anodized aluminum air piston, height adjustable, bung adapter, pump inlet easily accepts a variety of extensions

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T103-e
