# **End Application:**

4940-01-565-9593

# **Operation Method:**

Hand

# Lubricant Capacity Per Stroke:

20.0 ounces

# Pressure Rating:

Between 45.0 pounds and 150.0 pounds

# **Product Name:**

Piston pump

#### **Special Features:**

Double acting pump, patented air valve, factory lubricated air motor, builtin sintered brass air filter, anodized aluminum air piston, height

adjustable, bung adapter, pump inlet easily accepts a variety of extensions

#### Shelf Life:

N/a

# Unit Of Measure:

---

#### **Demilitarization:**

No
