End Application:

F16a/b aircraft age

Special Features:

Determines position of focal plane of optical module and establish thickness of shim reqd. To be fitted at interface between optical module and display cathode ray tube assembly; c/o opticalbench 84 in. L, 6 in. W, 8 in. H; 10 inparabolic mirror attached to one end of bench w/adapter assembly mounted at opposite end; drwg name focal plane determination test set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
