End Application:

Electro opt t/s tool kit

General Description:

5in. Aperture combines in an 18in. Instrument a 26 3/8in. Optical system; the short coupled design and the midsection eyepiece make it possible for one operator, while viewing through the eyepiece, to adjust on or more mirrors without help

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:
