Overall Length:

12.000 inches

Overall Height:

28.500 inches

Overall Width:

10.000 inches

End Application:

Sim-9 missile depot maintenance

Product Name:

Drill fixture

Special Features:

Consists of an aluminum weldment stand, locator plate with drill bushing, push clamp with a special cap and a fully automatic air operated drill with controls; powered by shop air 80-100 psi

Functional Description:

Sued to enlarge the servo piston hot gas exhaust orifice during modification

Reference Data And Literature:

33da-1-122

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
