Overall Length:

19.000 inches

Overall Height:

24.000 inches

Overall Width:

12.500 inches

End Application:

Aim-9 missile depot maintenance

Product Name:

Press fixture

Special Features:

Consists of a two ton hydraulic press, special arbor with indexing pin fitted into a 0.5 inch receptacle in the ram of the press, a holding fixture fabricated from a casting and machined to accept the servo cylinder block in a vertical position, and an index base plate attached to the press table

Functional Description:

Used to press into place the forward and aft seals following assembly of the gas generator to the cylinder block

Reference Data And Literature:

33da-1-122

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
