**Overall Length:**

26.000 inches

**Overall Height:**

1.750 inches

**Overall Width:**

4.500 inches

**End Application:**

Aim-9 sidewinder missile

**Product Name:**

Rocker arm holding fixture

**Special Features:**

Consist of an aluminum tray with eight clamps and eight cotouts along each side

**Functional Description:**

Used when bonding the piezoelectric crystal to the rocker arm

**Reference Data And Literature:**

33da-1-122

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
