End Application:

Gyroscope assembly 870060-101-2

Product Name:

Float holding fixture

Special Features:

Matl: corrosion resistant steel; o/a height: 0.750 in.; o/a diameter: 4.250 in.

Functional Description:

Used to constrain float assembly while torquing balance weights

Reference Data And Literature:

To 5n18-15-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
