End Application:

Missile system lgm-30

Product Name:

Amplifier, readout, assembly

General Description:

Assembly of 1 front panel machining, 1 front panel marking, 1 rear panel machining and marking, 1 amplifier board machining, 1 amplifier board marking, 1 amplifier board assembly, 1 side plate machining, 1 fuse holder, 1 fuse 0.500 amp, 1 line cord, 1 strain releif bushing, 1 connector, 3 switches, 3 knobs, 4 banana jacks, 13 resistors, 1 amplifier, 1 power supply, 4 potentiometer, 6 diodes, 2 capacitors, 1 module front panel, 1 module rear panel and related hardware

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
