End Application:

Missile Igm-30

Product Name:

Pentaprism

Functional Classification:

Aa-7.1

Functional Description:

Will deviate a 2 1/2 inch diameter collimated light beam through an angle of 90 degree porm 3 arc seconds, measured in a plane parallel to its mounting plane

Entry Date:

73-5-15

Reference Data And Literature:

Model spess s-133-132-4-616, pentaprism 67831-707-1, functional test aa0209-083, interface document d20186-111, base equip installation 18223

Relationship To Similar Equipment:

Transfer mirror nsn 4935007812485

General Description:

Assembly of aluminum encased glass prism. Drive unit 1, mounting base plate 1, theodolite 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
