End Application:
Missile Igm-30
Product Name:
Pentaprism
Functional Classification:
Aa-7.1
Functional Description:
Will deviate a 2 1/2 inch diameter collimated light beam through an angle of 90 degre porm 3 arc seconds, measured in a plane parallel to its
mounting plane
Entry Date:
73-5-15
Reference Data And Literature:
Model spess s-133-132-4-616, pentaprism 67831-707-1, functional test aa0209-083, interface document d20186-111, base equip installation
18223
Relationship To Similar Equipment:
Transfer mirror nsn 4935007812485
General Description:
Assembly of aluminum encased glass prism. Drive unit 1, mounting base plate 1, theodolite 1
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
