End Application:

Missile Igm-30

Product Name:

Tube, optical sight

Functional Classification:

Aa-7.1

Functional Description:

Used at newark afs as an integral part of an electro-optical test station

Entry Date:

73-5-15

Relationship To Similar Equipment:

Optical sight tube no. 17955, tube no. 67650-707-1, interface doc no. 20196-111 sheet 1 and 2, ident specification no. S-133-132-4-576, tool proofing procedures no. Aa0208-322

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
