End Application:

Aircraft model f-4c

Criticality Code Justification:

Feat

Product Name:

Test set, missile interface

Special Features:

The missile interface test set (mits) has a critical application to support the missile control subsystem (amcss) item dimensions are 12 x 43 x 11 in inches

General Description:

Assembly of 1 test set assembly p/n 3044172 and related hardware

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
