End Application:

Missile agm-65

Special Features:

Assembly of chassis assembly 1, test point assembly 1, nuts assembly 1, connector panel 1, load bank assembly 1, card test assembly 1, relay assembly 1, computer assembly 1, computer assembly 1, printer assembly 1, crt assembly 1, keyboard assembly 1, power supply assembly 2, drawer assembly 3, fuse chassis assembly 1, fuse panel 1, inlet 2, oscilloscope 1, multimeter 1, power outlet box 1, bracket 5, panel 3, power distance assembly 1 modified shelf 1, basket assembly 1, grounding bus 1, grounding strap 3, paper support 1, cable assembly 30, clamp 1, tie cable 1, modified cable carrier 1, strap 1, bushing 2 and related hardware

Supplementary Features:

Company item name--test set, top assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
