End Application:

Lgm118a peacekeeper

Voltage In Volts And Current Type:

220.0 ac

Product Name:

Hydraulic cart

Special Features:

3 phase, comes with 4 caster wheels, 500 psig hydraulic fluid pressure fuel flow gpm 4 at 1000 psig

Functional Description:

Used to supply hydraulic pressure to actuate stage ii tva systems during depot maintenance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
