**End Application:**

F112-wr-100 engine

**Special Features:**

Ovoltage 110 vac; pump-explosive proof, 2 hp, 0-20 gal/min.; gages-illuminated, 0-500 psi; holding tank cap-25 gallons; filter system-0-100 micron; cabinet outer shell-plate aluminum; dim: 7 ft.Lg, 3 ft.W, 6 ft.H; weight 450 lbs

**Functional Description:**

Used during depot level maintenance of the f112-wr-100 turbofan engine to dynamically inspect/test the lubrication and scavenge lube pump assembly; the test set stand will drive the lube pump and supply oil or calibration fluid, shaft rpm, fluid delivery rate, and required instrumentation for speed, flow, temperature, and pressure indications

**Entry Date:**

88-10-01

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23800
