End Application:

F112-wr-100 engine

Special Features:

Ovoltage 110 vac; pump-explosive proof, 2 hp, 0-20 gal/min.; gages-illuminated, 0-500 psi; holding tank cap-25 gallons; filter system-0-100 micron; cabinet outer shell-plate aluminum; dim: 7 ft.Lg, 3 ft.W, 6 ft.H; weight 450 lbs

Functional Description:

Used during depot level maintenance of the f112-wr-100 turbofan engine to dynamically inspect/test the lubrication and scavenge lube pump assembly; the test set stand will drive the lube pump and supply oil or calibration fluid, shaft rpm, fluid delivery rate, and required instrumentation for speed, flow, temperature, and pressure indications

Entry Date:

88-10-01

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23800
