**Furnished Items:**

Vacuum gauge; guidance unit adapter; mass spectrometer vacuum system; fill and leak purge test set

**Component Quantity:**

4

**Special Features:**

115vac, 60 hz, single phase

**Functional Description:**

Used to provide evacuation equip controls regulate purge and fill operation, leak detection equip, and holding equip reqd for operation

**Entry Date:**

88-10-01

**Supplementary Features:**

Operating temp 72 degrees f., 23 degc.; operating humidity 50 percent relative; power consumption electrical/pneumatic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23800
