End Application:

Lgm-30 missile aps-1266

Furnished Items And Quantity:

Control console, aps/pump test stand, printer, nine cables, loose equipment, software

Installation Design:

Portable

Criticality Code Justification:

Feat

Product Name:

Test set, aps pump

Special Features:

Hardness critical item

Nuclear Hardness Critical Feature:

Hardened

Reference Data And Literature:

Boeing drawing 86600-307

Supplementary Features:

Consists of caster mounted control console and separate castered tester containing special designed rack mounted test equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T361-e
