End Application:

Lgm-30g

Unpackaged Unit Length:

36.000 inches

Unpackaged Unit Width:

24.000 inches

Unpackaged Unit Height:

60.000 inches

Joint Electronics Type Designation System Item Name:

Test station, guided missile system

Criticality Code Justification:

Feat

Product Name:

Service field test set, alignment console assembly

Special Features:

Contains some parts and assemblies susceptible to damage by electrostatic discharge

Functional Description:

Provides electronics and interconnections to align the monitoring equipment in to sfts design, during the fuse set and verify tests, the mod 3 and mod 5 warhead pre-arm tests and the isolation and continuity tests. Alignment console provides channels for current, voltage, and resistance measurements

Nuclear Hardness Critical Feature:

Hardened

Relationship To Similar Equipment:

Functionally but not mechanically similar to existing sfts test set

Supplementary Features:

60.560 in. H, 36.000 in. Deep

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
