General Description:

Multiple valve type; designed for feed valve testing; 80 lb operating air pressure; gage data, main reservoir type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, quick action chamber type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, brake pipe line type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, brake pipe volume type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, auxiliary reservoir type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, brake cylinder reservoir type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, secondary quick service type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations, emergency reservoir type, 1 required, 3-1/2 in. Dia, 0 to 160 lb dial graduations; reservoir data, two compartment reservoir type, 1 required, 16-5/16 in. Dia, 33-3/8 in. Lg, brake pipe volume reservoir type, 1 required, 8-1/4 in. Dia, 11-1/4 in. Lg, main reservoir type, 1 required, 10 in. Dia, 22-3/4 in. Lg, quick action chamber reservoir type, 1 required, 4-1
