Overall Length:

17.000 inches

Overall Height:

22.250 inches

Overall Width:

14.000 inches

Product Name:

Hydrostatic hose tester

Special Features:

Tester contains a single-stage air-operated pump which develops the required pressure; test medium=tap or distilled water; pressure 2000psi; reservoir capacity=3 gallons

Functional Description:

Used to pressure test aircraft hose assemblies

Reference Data And Literature:

33a2-2-36-1; sprague af (608) 21489; f41608-84-d-a384

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

FiiG:

A23900
