Overall Length:

10.000 inches

Overall Height:

8.000 inches

Handle Material:

Aluminum alloy

Handle Surface Treatment:

Painted

Housing Material:

Aluminum alloy

Fungus Resistant Treatment:

Not included

Accessory Components And Quantity:

Base plate, triangle 1

Switch Functional Positions:

Any acceptable

Housing Surface Treatment:

Painted

Temperature Rating:

Between 750.0 degrees fahrenheit and 1000.0 degrees fahrenheit

Switch Quantity:

1

Wattage Rating:

Any acceptable

Heating Element:

Included

Hot Air Thermostatically Controlled Feature:

Not included

Suspension Feature:

Not included

Product Name:

Heater, gun type, electric

Phase:

Single

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T276-d
