Handle Material:

Plastic

Housing Material:

Plastic

Accessory Components And Quantity:

Circular shield, 1

Supplementary Features:

Used to heat the high pressure turbine aft shaft prior to the no. 4 bearing outer race installation and to heat the aft shaft and outer race for installation of the low pressure turbine module

Fsc Application Data:

Kc-135r

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T276-d
