Overall Length:

10.810 inches

Overall Height:

3.970 inches

Overall Width:

7.380 inches

End Application:

Housing for electronic equipment

Special Features:

NHA,-66-250-1396

Material:

Aluminum alloy

Surface Treatment:

Passivate

General Description:

Material per alum alloy 6061-0 for dip brazing or 5052-h34 for welding; surface treatment is chemical film, mil-c-5541, type ii, group c, class 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
