Overall Length:

48.000 inches

Overall Height:

36.000 inches

Overall Width:

36.000 inches

Minimum Air Pressure:

20.000 pounds

Blast Material Feed Method:

Any acceptable

Nozzle Quantity:

1

Nozzle Material:

Any acceptable

Nozzle Size:

Between 13.0 millimeters and 26.0 millimeters

Blasting Stream Control Type:

Automatic

Product Name:

Blast cabinet

Functional Description:

Used to remove finish by means of air pressure and media for parts cleaning

Reference Data And Literature:

Mil-prf-83756d

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T276-b

Mil-std (military Standard):

Mil-prf-83756d spec.
