Accessory Components And Quantity:

Electronic controlled pulse system 1; 1/2in bore nozzle 1; lightweight hose set 1; remote control system 1; 6 cu ft pressure vessel 1; fluidized section 1; media metering valve 1; air inlet control assembly 1; pop-up filler valve 1; control panel 1; operator safety package 1

Blasting Stream Control Type:

Manual

Product Name:

Ram blast room

Special Features:

Room dimensions 10ft w x 10ft h x 20ft l; additional major components: 7000cfm cartridge filter dust collector; low profile media recovery hopper; ram 22 reclaim, recovery, storage and blast generating machine; cyclone separator, 16cu ft storage hopper, media recovery blower; 70ft/min vent velocity; 1-1/4in piping

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T276-b
